5-Stand

The new **all weather** elevated 5-stand shooting field is now open. There are 5 stations at various elevations offering weather sheltered shooting opportunities for compact clays target shooting. The clay target presentations include 8 target machines that provide 2 crossing targets, 2 outbound quartering targets, rabbit, springing teal, a 20' outbound tower and an incoming target. Shoot program options vary from all single targets to combinations of single, on report, following or simultaneous pair presentations. The 25 target shoot programs can be selected based on overall squad capabilities (novice (level 1) to advanced (level 3)).
